[CAUTION]** Power Tone alone and MFB to switch on, low battery mode, auto shut off the BOAT Pro+ Voice switches on it gets notified by a prompt sounds. Tone alone the MFB to turn it off and when connected mode Made for Gamers, My Gamers, NEXT mode reduce the latency significantly and improve the overall gaming experience.

DUAL PAIRING

To connect Rockerz 255 Pro+ to two devices simultaneously:
1. Firstly connect the earphone to one of the devices.
2. Then, switch both the earphone and the device off.
3. Thereafter, connect the earphone to the second device.
4. Again switch the first device on. The earphone will get connected to both devices.
(If not, connect the first device manually once again to activate dual pairing.)

SAFETY CAUTIONS

(1) Please don't dismantle the product in any way to remove the product's battery by yourself as this can lead to a fire or electrical breakdown. Any maintenance or servicing of the earphones should be done only through a qualified service provider/manufacturer.

(2) Please clean the ear phones with the utmost of care with only a damp soft cloth, if cleaning is required. Please do not use any kind of volatile liquid. In addition, ensure that the earphones are kept away from extremely hot or cold substances.

(3) Any damage to the earphones that is NOT a manufacturing issue will make the product's warranty null and void.

(4) Do not use earphones when it is unsafe to be wearing them, such as while operating a vehicle, crossing a street, or during any activity where full awareness of your surroundings is required.

(5) To avoid damage to your hearing, make sure that the volume on your music player is at an appropriate level when you are Plugging into Minnaria. Exposure in any noise levels at or above 85dB can gradually lead to a loss of hearing.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure conditions without restrictions.
