Charging Pad with MagSafe®

Warranty
Apple Inc. warrants this product against defects in materials and workmanship when used in normal, consumer use for one (1) year from the original date of consumer purchase. Apple Inc. will, at its option, repair or replace a product that proves to be defective during the warranty period, without charge to the consumer. Warranty does not cover damage to the product caused by abnormal wear and tear, conditions of use outside the intended use, or other conditions that are not caused by defects in materials and workmanship. Warranty does not cover damage to the product caused by accident, abuse, misuse, liquid contact, fire, earthquake or external causes such as electrical power surges or improper electrical power or connection, or improper installation or maintenance performed by someone other than Apple or an Apple Authorized Service Provider. For warranty service or information, please contact Apple or an Apple Authorized Service Provider, and have proof of purchase available. Product serial number may be required to obtain service under the warranty. Except to the extent allowed by applicable law, implied warranties, if any, arising from this warranty shall last one (1) year from the original date of consumer purchase. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Contact Apple or an Apple Authorized Service Provider for information about your consumer rights under applicable law.

Made For Apple®
Use of the Made for Apple® badge means that an accessory has been designed to connect specifically to the Apple product identified in the badge, and has been certified by the developer to meet Apple® performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

FCC Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and devices.
- Consult the dealer or an experienced radio/TV technician for help.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced technician for help.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
To comply with RF exposure requirements, a minimum separation distance of 20cm must be maintained between the antenna of this device and persons during operation. To ensure compliance, operation at closer than this distance is not recommended.

CE Statement
Hereby, Belkin International declares that this product complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. Operation is subject to the following two conditions:
- This device may not cause interference.
- This device must accept any interference, including interference that may cause undesired operation of the device.

IC RF Exposure Statement
This device complies with Industry Canada's RF Radiation exposure limit set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 15cm between the radiator and your body.

CE Warning
This device is rated for Fixed location. To comply with RF exposure requirements, a minimum separation distance of 20cm must be maintained between the user's body and the wireless charger, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet this requirement should not be used. Use only with RF exposure requirements which should be avoided. Use only the supplied or an approved antenna.
This device is in compliance with essential requirements and other relevant provisions of the CE Directive. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

6

CE Declaration of Conformity
Belkin International declares that this product type RoHS is in compliance with Directive 2011/65/EU and Directive (EU) 2015/863 amending Annex II to Directive 2011/65/EU.
