Product Description

Connection

Automatically connection

Turn on the Bluetooth function of your mobile phone, and the Bluetooth function of the glasses will automatically connect to the last connected mobile phone.

Manual Bluetooth connection and pairing

Turn on the Bluetooth function of your mobile phone, and the Bluetooth function of the glasses. Wearing the Bluetooth Glasses, the Glasses will automatically enter the Bluetooth pairing mode, and the Bluetooth indicator will flash red and blue alternately. Search and connect to the Bluetooth signal "Bluetooth Glasses" on your mobile phone.

Tips: If the Glasses are not paired for more than 3 minutes, the Glasses will automatically exit the pairing mode. If you need to pair again, please turn off the Glasses and restart the pairing mode.

Notes:

1. Bluetooth Glasses can only be paired with one mobile phone at a time. If you need to pair with other mobile phones, please first disconnect the Bluetooth connection with the paired mobile phone.
2. When the Glasses are turned on, they will automatically connect to the last connected mobile phone.
