OnePlus Watch

Statement

The Safety Information and Warranty Card contains information about how to operate your OnePlus product safely. Read the Safety Information carefully and keep the information properly for reference.

Data security

If you have installed third-party software to upgrade the firmware or operating system of the watch, which may result in your failure, personal information disclosure, or other security risks. You are advised to upgrade the watch online or at a nearby OnePlus service center.

Precautions

1. Do not use the watch in damp environments or environments with magnetic fields to avoid internal circuit failure.
2. Do not place the watch near electronic devices such as electric or electric devices.
3. Do not use the watch in environment where the temperature is between 0°C and 35°C and the humidity is between 35% and 85%, and store the watch in environment where the temperature is between -20°C and 45°C. Extreme heat or cold may affect use or damage the watch and battery.
4. Do not use the watch in environment where the temperature is between 0°C and 35°C to avoid electrocution by performing a charging operation. Charging the watch in environment where the temperature is higher than 40°C, it cannot enter the quick charging mode. Charging the watch in environment where the temperature is higher than 45°C, it will automatically stop charging. Charging the watch in environments where the temperature is lower than 0°C may cause electrolyte leakage, fire, explosion, or other risks.
5. Do not use the watch in environments such as in a car dashboard or window sill.
6. Do not place the watch in the vicinity of heat and fire, such as a heater, microwave oven, water heater, stove, candle, or other high-temperature equipment.
7. Keep the watch and its accessories out of the reach of children. Small parts may be swallowed or complete parts that may present a choking hazard or other risks.
8. Do not let children, pets, or other people and children around use the watch with adult supervision.
9. If in places where wireless devices are prohibited, do not use the watch. Wireless devices may affect the operation of other electronic equipment.
10. Do not use the watch in an environment where it may be exposed to inoperable medical devices or personal medical devices, such as pacemakers and hearing aids. If you need to use the watch near medical devices, consult OnePlus or manufacturers on using the watch safely.
11. When using the watch, keep it at least 15 cm away from implantable medical devices, such as pacemakers and cochlear implants. Keep the watch away from pregnant women's abdomen.
12. Keep the watch away from adolescents' lower abdomen.
13. Children's and adolescent's shall not use the watch frequently or for a long time.

Information and explosion areas

1. Do not use the watch in areas such as gas stations or places that store or ship flammable and explosive substances or chemicals, such as fuel, gas, or explosive. Turn off audio and text notifications to avoid explosion or fire.
2. Do not store or ship the watch and its accessories with flammable liquid or gas or explosive substances in the same box.

Traffic safety

1. Do not use the driving rules and do not do other activities that require concentration when driving.
2. Electronic devices in a car may become faulty due to radio waves. If you notice any abnormal phenomena, stop using the watch and contact the car manufacturer.
3. Do not place the watch above the airbag in a car or areas where the airbag can control when it inflates. When the airbag inflates, the watch may cause serious injury. Do not place the watch in areas where the airbag may inflate.

Waterproof and Anti-dust

The watch has been tested to be waterproof and anti-dust in specific environments.

Battery warning

A lithium battery is built into this product. It must not be dismantled, punctured, or exposed to high heat.
A battery suspected to overheat has an pressure that may result in an explosion or the leakage of flammable liquid or gas.
If the battery leaks or emits an odor, stop using the battery and move it to a safe place as soon as possible. If the battery leaks or emits an odor, keep it away from other equipment and people to prevent the leaker.
Dispose of the battery in accordance with local regulations. Do not dispose of the battery as household refuse.
Do not place the battery in a microwave oven or other equipment. Replacing battery by an incorrect type could lead to explosion.
Do not dismantle or modify the battery. Do not puncture the battery. Damaging the battery could cause battery leakage, overheating, or fire.

Cleaning and maintenance

1. Keep the watch and its accessories dry. Do not use external heating devices such as microwave ovens or hair dryers to dry the watch.
2. Do not place the watch and its accessories in an extreme heat or cold environment to avoid device faults, fire, or explosions.
