

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT. On the left is a circular green printed circuit board (PCB) with a central square loop of copper wire. Various electronic components, including a red component and several small surface-mount components, are visible on the board. To the right of the PCB is a white, semi-circular plastic housing with four small black circular features. Both items are placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.
Solder Board-Component View 1	 A close-up photograph of the green PCB from the previous view. It shows the central square loop of copper wire and the surrounding circuitry, including a red component and various surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters.

Solder Board-Component View 2	 A photograph of a green circular PCB component with a white spiral antenna pattern. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component has a small red component and a yellow tape on the spiral.
Antenna View	Wireless charging Antenna  A photograph of the same green circular PCB component, showing the white spiral antenna pattern more clearly. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A red box labeled "Wireless charging Antenna" points to the spiral pattern.
