Board View 4**

Solder Board-Component View 1	 A photograph of a small, rectangular, black printed circuit board (PCB) component. The component is densely populated with various electronic components, including a large blue circular component in the center, several smaller components, and a yellow connector on the left side. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows measurements in centimeters (0 to 12) and millimeters (0.5 to 12).
Solder Board-Component View 2	 A photograph of the same black PCB component from a different perspective. This view shows a QR code on the left side of the component, a large circular hole in the center, and several small components. The component is placed on a blue textured surface next to a metal ruler for scale. The ruler shows measurements in centimeters (0 to 12) and millimeters (0.5 to 12).

Solder Board-Component View 3	 A photograph showing a circular white plastic housing with a green PCB inside. The PCB is populated with various electronic components, including a microcontroller, capacitors, and resistors. The housing has four mounting holes around its perimeter. A ruler is placed next to the housing for scale, showing it is approximately 10 cm in diameter. The background is a blue textured surface.
Solder Board-Component View 4	 A photograph showing a close-up of the green PCB from View 3. The PCB is circular and populated with various electronic components, including a microcontroller, capacitors, and resistors. A ruler is placed next to the PCB for scale, showing it is approximately 10 cm in diameter. The background is a blue textured surface.
