For standalone installation, there is a label is on the interior rear cover of case, as shown.

## LABEL INFORMATION CONT.

**ENGINEER'S DRAWING OF THE LABEL INSTALLED IN THE PLASTIC CASE REAR INTERIOR SURFACE:**

LABEL INFORMATION CONT.

CASE 2: EXACT LOCATION OF THE LABEL, PANEL ENCLOSURE INSTALLATION:

The printed circuit assembly may also be removed from the plastic case and installed directly inside the metal enclosure housing the control panel. In this case, the summary of connections (SOC) label that is shipped with the device is not affixed to the plastic case, but instead is affixed to the enclosure interior surface. The summary of connections label also contains the FCC and IC IDs, and it serves as the permanently affixed label for this use case.
