Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) with various electronic components soldered onto it. The board is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the board, showing measurements in millimeters. The board features several integrated circuits, resistors, and other surface-mounted components. The solder joints are visible and appear to be of good quality.
Solder Board-Component View 8	 A photograph of the same green printed circuit board (PCB) from a different perspective, showing the underside. The board is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the board, showing measurements in millimeters. The underside of the board shows various components, including a large black heat sink, several integrated circuits, and other electronic components. The solder joints are visible and appear to be of good quality.
