FINLAND

26th of September 2024

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

Nextfour Solutions Oy hereby requests a Permissive Change Class II of the radio equipment certification for the Wi-Fi/Bluetooth Module certification number FCC ID: 2AYT7-9260.

Changes to the approved radio module are limited to the following:

- Antenna changed to approved commercial antenna.

The host product has been changed by the following:

- Associated digital circuitry: different display size.
- Functional capabilities: no changes.
- Antenna characteristics: Internal antennas changed to approved commercial antenna.
- Cosmetic differences: different display size.

The module itself, including all RF portions remains unchanged. Field strength and/or RF Output readings remained the same or are lower than the originally approved product.

Sincerely,

Ville Keskilohko
Technology Manager
