10. Warranty terms

10.1 Warranty scope

10.1.1 The body of Kloud Note: The warranty period is 1 year **10.1.2** Within 15 days from the date of purchase, under normal operating conditions, if there is a performance failure caused by the quality of the product itself, if it has not been disassembled and repaired, the product of the same model or repair service can be replaced.

10.1.3 Within one year from the date of purchase, any performance failure caused by the quality of the product itself under normal operating conditions, if it has not been disassembled and repaired, can enjoy free maintenance services.

10.1.4 Within three years from the date of purchase, if the product has a performance failure, you can enjoy a fee-based maintenance service.

10.1.5 The above warranty or repair is limited to failures of electrical components, mainly including hardware motherboards and display screens, excluding consumables and accessories such as shells, packaging, and USB cables.

10.2 Non-warranty coverage

The following conditions are not covered by the warranty. Even within the applicable time frame, the warranty terms will no longer apply, but you can still enjoy fee-based repair services.

10.2.1 Failure machines without Kloud Note trademark

10.2.2 The malfunctioning machine caused by unauthorized disassembly and maintenance without our permission.

10.2.3 Malfunctioning machines with altered or missing product serial numbers.

10.2.4 Failure or damage to the malfunctioning machine caused by man-made reasons or use in an unspecified environment, such as excessive humidity or dryness, high temperature, unstable voltage or current, excessive zero-to-ground voltage, etc..

10.2.5 Damage caused by accidental reasons or improper use, including machine ingress, rupture, collision, abnormal insertion and removal, insect damage, etc.; Natural consumption, including natural consumption, wear and aging of the casing and plug-in parts.

10.2.6 Damage caused by force majeure, such as fire, flood, earthquake and other natural disasters.

10.2.7 The malfunctioning machine caused by the operation of the software of the machine outside the allowable scope of the SDK.

10.2.8 It has been identified that it does not belong to the malfunctioning machine produced by our company.

10.3 Precautions for repairing

10.3.1 The user needs to contact our after-sales department in advance to determine whether it is within the warranty scope, whether it is a malfunction, the cause of the malfunction, etc..

10.3.2 The user needs to provide the purchase voucher (invoice or receipt)description of the abnormal condition of the equipment, and send it back to our maintenance department together with the equipment.

10.3.3 Due to the special nature of the product screen, non-screen repair equipment, please ensure that the screen is in good condition

and reinforce the packaging before sending it for repair to avoid damage on the way. Our company is not responsible for the free repair of products with damaged screens.

10.3.4 Only the machine and the above-mentioned required items are provided for repair. Do not send earphones, adapters and other accessories with the equipment. If there is any loss, our company will not be liable for compensation.

10.3.5 Please back up your data before sending it for repair. Our company is not responsible for data loss due to repair.

The final interpretation right of this warranty clause belongs to Shenzhen Geniatech Inc., LTD.

11. Q&A

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- · Reorient or relocate the receiving antenna.
- · Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- · Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information

This device meets the government's requirements for FCC radiation exposure limits set forth for an uncontrolled environment. This device was tested for typical body-worn operations with the back of the E-INK Tablet kept 0 mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0 mm separation distance between the user's body and the back of the E-INK Tablet. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
