5. - VOL +

1. The system is on Stand By (ST-BY) mode when you switch on the power supply. The LED display will read "----". Press "ST-BY/PLAY/PAUSE" button once and it will default to DVD input mode and the LED display will read "DU18"; "DU" being DVD input mode and "18" being the default volume at 18dB. Change back to "ST-BY" in any mode by pressing and holding the "ST-BY/ PLAY/ PAUSE" button. In USB/SD mode, press the "ST-BY/ PLAY/ PAUSE" button once to play or pause the music.

2. The SOURCE button allows you to switch between 4 different modes. Press once in DVD mode to get to USB/SD mode, twice to get to FM mode and 3 times to get to Aux mode. The LED display will read "dU18" in DVD mode, "Ud18" in USB/SD mode, "89.1" (or current radio station) in FM mode and "AU18" in AUX mode. If using the USB function the LED display will read "usb18" and if using the SD function it will read "sd18".

3. Press "TUNING+/NEXT" quickly to search ascending channel by channel (0.1mHz per click) in FM mode. Hold down "TUNING+/NEXT" to scan through ascending channels, playing automatically once detected. Press "TUNING+/NEXT" once in USB/SD mode to play the next song.

4. Press "TUNING-/PREV" quickly to search descending channel by channel (0.1mHz per click) in FM mode. Hold down "TUNING-/PREV" to scan through descending channels, playing automatically once detected. Press "TUNING-/PREV" once in USB/SD mode to play the previous song.

5. Press the volume dial to change from 2.1 mode to 5.1 surround mode. The LED display will read "PL ON" in 5.1 mode and "PL OF" in 2.1 mode. In 2.1 mode the system will utilize the sub-woofer and 2 front satellite speakers only, and in 5.1 mode it will utilize the sub-woofer and all 5 satellite speakers. Turn the dial to the right to decrease the volume (0dB minimum) and turn the dial to the left to increase the volume (30dB maximum).

Using The Remote Control

1. MEMORY: In FM mode, using the "TUNING +/-" buttons choose a preferred station, press "MEMORY" once, choose the channel to coincide with this station (1-9) and press "MEMORY" again to program that station to that channel. Repeat this process with up to 9 different stations. To remove a channel, press "MEMORY" once, then use the "PREVIOUS" or "NEXT" button to find the channel you'd like to remove and press the "PLAY/ PAUSE" button to remove it. Press and hold th "MEMORY" button to scan and save stations automatically.

2. ST-BY: Use the "ST-BY" button to start the system.

3. DVD: Press "DVD" once to use DVD input mode.

4. AUX: Press "AUX" once to use AUX input mode.

5. FRONT: Press "FRONT" to select the front speakers. The output level can be adjusted using the "VOL +/-" buttons.

6. PREVIOUS: In USB/SD mode, press "◀" to play the previous song. In FM mode, press "◀" to go to the previous radio station channel.

7. VOLUME -: Press "VOL -" to decrease the volume.

8. SURROUND: Press "SURR" to select the rear speakers. The output level can be adjusted using the "VOL +/-" buttons.

9. 0-9 NUMBER BUTTONS: In USB/SD mode, use the number buttons to select the desired track. In FM mode, use the number buttons to select the desired radio station.

10. PRESET: Press "PRESET" to go through previously saved radio station channels.

11. MUTE: Press "MUTE" to suspend and activate all sound. LED Display will blink in mute mode.

12. FM: Press "FM" once to use FM input mode.

13. BLUE-TOOTH: Press "BLUETOOTH" to use blue-tooth input mode. The LED Display will blink while searching for blue-tooth device. On your mobile device, pair with "BT SPEAKER" in your mobile device blue-tooth menu. Once you have successfully paired your mobile device to the system the LED Display will stop blinking. You can use your device for PREV/NEXT/PLAY/PAUSE/VOL+/- functions. Use the remote for MUTE/ VOL+/- functions. Press and hold "▶ ||" for 3 seconds to force disconnect from blue-tooth.

14. USB/SD: Press "USB/SD" once to use USB/SD input mode.

15. 5.1/2.1: Press "5.1/2.1" to change from 2.1 to 5.1 surround sound

16. CENTER: Press "CEN" to select the center speaker. The output level can be adjusted using the "VOL +/-" buttons.

17. VOLUME +: Press "VOL +" to increase the volume.

18. NEXT: In USB/SD mode, press "▶" to play the next song. In FM mode, press "▶" to go to the next radio station channel.

19. PLAY/PAUSE: Press "▶ ||" to play or pause the music.

20. SUB-WOOFER: Press "SUB" to select the sub speakers. The output level can be adjusted using the "VOL +/-" buttons.

21. TUNING +: press once to ascend FM channels, press and hold to scan FM channels ascending

22. TUNING -: press once to descend FM channels, press and hold to scan FM channels descending

Note: if remote loses function, please replace the 2 AA batteries.

FCC NOTE:

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS OR CHANGE TO THIS EQUIPMENT. SUCH MODIFICATIONS OR CHANGE COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
