19 Chapin Rd, Building D. Pine Brook, New Jersey Tel No : 973-808-6375 Fax No : -

Applicant/Grantee Samsung Electronics Co Ltd							
FCC ID:		A3LWCF730M					
IC:		649E-WCF730M					
101				ular Transn	nitters		
Reques	st for Modular	Approval			imited Modular Approval		
		Requirement			EUT Conditions	Comply (Y/N)	
				ar Approva	l Requirements		
1	The radio elements of the modular transmitter				Refer to the external photo	Y	
	must have the	heir own shield	ing. The phy	ysical	1		
	crystal and tuning capacitors may be located						
	-	he shielded rad	•				
2	The modula	r transmitter m	ust have buf	fered	All input to the modules are	Y	
	modulation/	data inputs (if	such inputs a	are	buffered through		
	provided) to	ensure that the	e module wil	ll comply	microprocessor inputs.		
	with modular approval requirements under						
	conditions of excessive data rates or over-						
	modulation.						
3	The modular transmitter must have its own power				Internal power regulators	Y	
	supply regulation.				Refer to the Block-diagram		
4	The modular transmitter must comply with the antenna and transmission system requirements.				Refer to the internal photo	Y	
5							
5	The modular transmitter must be tested in a stand-				The EUT was tested in a	. Y	
	alone configuration, <i>i.e.</i> , the module must not be				standalone configuration via a SD extension cable		
	inside another device during testing. Unless the				Refer to the test setup photo		
	transmitter module will be battery powered, it must comply with the AC line conducted				Refer to the test setup photo		
	requirements found in Section 15.207. AC or DC						
	power lines and data input/output lines connected						
	-	le must not cor	-				
		marketed with	,				
	Section 15.27(a)). The length of these lines shall						
	be the length typical of actual use or, if that length						
	is unknown, at least 10 centimeters to insure that						
	there is no c	oupling betwee	en the case o	of the			
		supporting equ					
		peripherals, or		-			
		o the module du					
		and commercia	ally available	e (see			
(Section 15.3		(1 .	1 1		X 7	
6	The modular transmitter must be equipped with either a permanently affixed label or must be				Refer to the external photo	Y	
	-	•					
	capable of electronically displaying its FCC identification number.						
	(A) If using a permanently affixed label, the modular						
		ist be labeled with					
	number, and, i	if the FCC identifi	cation number	is not visible			
	when the module is installed inside another device, then the outside of the device into which the module is installed must						
	outside of the	aevice into which	ine module is i	nstalled must			

	also display a label referring to the enclosed mo	dule. This						
	exterior label can use wording such as the follow	ving:						
	"Contains Transmitter Module	0						
	FCC ID: XYZMODEL1" or "Contains FCC ID:							
	XYZMODEL1." Any similar wording							
	that expresses the same meaning may be used. The	he Grantee						
	may either provide such a label, an example of w							
	be included in the application for equipment							
	authorization, or, must provide adequate instruc	tions along						
	with the module which explain this requirement.							
	case, a copy of these instructions must be include							
	application for equipment authorization.							
	(B) If the modular transmitter uses an electronic							
	the FCC identification number, the information							
	readily accessible and visible on the modular tra							
	on the device in which it is installed. If the modu							
	installed inside another device, then the outside							
	device into which the module is installed must di							
	label referring to the enclosed module. This exte							
	can use wording such as the following:							
	"Contains FCC certified transmitter module(s)."							
	similar wording that expresses the same meaning							
	used. The user manual must include instructions							
	access the electronic display. A copy of these ins							
	must be included in the application for equipment	ıt						
	authorization.							
7	The modular transmitter must comply w	Refer to the user manual	Y					
	specific rules or operating requirements	•						
	ordinarily apply to a complete transmitte							
	manufacturer must provide adequate inst							
	along with the module to explain any suc							
	requirements. A copy of these instruction	ns must						
	be included in the application for equipm	nent						
	authorization.							
8		ith only	Defer to the DE experience	Y				
0	The modular transmitter must comply w	•	Refer to the RF exposure	I				
	applicable RF exposure requirements in	its final	statement for more details.					
	configuration.							
A limited	d modular approval may be granted for sin	gle or split	modular transmitters that do not o	comply with all				
of the above requirements, <i>e.g.</i> , shielding, minimum signaling amplitude, buffered modulation/data inputs, or power supply regulation, if the manufacturer can demonstrate by alternative means in the application for								
equipment authorization that the modular transmitter meets all the applicable Limited modular approval also								
may be granted in those instances where compliance with RF exposure rules is demonstrated only for particular								
product configurations. The applicant for certification must state how control of the end product into which the								
module will be installed will be maintained such that full compliance of the end product is always ensured.
