

Manufacturer's Declaration Regarding the Location of the FCC 15.19(a)(3) Statement

"The outside of the 6820 printer is textured and a label will not stick to it. These are portable hand carried printers, so they take a beating and external labels don't survive very well."

As shown in the following pages, the FCC ID label is readily visible, but the available space where a label can be applied is extremely small. Per 15.19(a)(5), the statement in 15.19(a)(3) is placed in the user manual.

Intermec Technologies Corporation
Everett, WA 98203 Made in U.S.A.

Product covered by one or more of the following patents: US Patents Des 315573, 5180232, 5341115, 5484991, 5816725; Foreign Patents Patent Espanola No. 2014740; Breve Belge 8900747; Canada Patented 1997 (No. 1339028), Canada Patented 1996 (No. 1338046); Italy Patented 1991 (No. 1230308); Luxembourg brevete (No. 87552); UK Patent No. 2221426
