NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

TROUBLESHOOTING

No power	Recharge your earbuds using the included battery charging case.
Music is not playing over bluetooth	Make sure your Bluetooth device has A2DP profile. Check if both devices are paired and connected over Bluetooth. Restart the earbuds to reconnect your Bluetooth device.
Bluetooth device will not reconnect with the earbuds	Navigate to your Bluetooth settings menu on your Bluetooth device, tap "Merkury E003T," and select "Forget." Now follow the steps to pair your device again.

Specification:

QUICK PAIRING GUIDE FOR NEW DEVICES

LED Light

POWER BUTTON

IMPORTANT: Please follow these directions in the proper order to ensure the earbuds pair and connect properly.

1. **Right earbud:** Press & hold the power button for 3-4 seconds until the LED light flashes red & blue.
2. **Left earbud:** Press & hold the power button for 3-4 seconds until the LED light flashes red & blue.
3. After 5-10 seconds you will hear the voice say Connected, and the Left earbud will slowly flash blue.
4. On your smartphone open the Bluetooth menu, power on your Bluetooth setting and search for new devices.
5. When you see Merkury E003T listed, tap it to connect.
6. Your earbuds will say Connected again and the right earbud will slowly flash blue.

Note: If your device asks for a passcode to connect, enter "0000".

Quick guide single side print

CHARGING

EARBUDS

- Checking the "R" and "L" indicators on the charging case, place the right and left earbuds into the corresponding cavities of the charging case so that the magnetic metal charging contacts line-up correctly.
- The LED indicators on the earbuds will glow red and the charging indicators on the case will glow blue. Your earbuds are now charging.
Note: If charging does not begin, press the power button on the charging case.
- Once your earbuds are fully charged the LED indicators will turn solid blue. After approximately 5 minutes the LED indicators will turn off.

CHARGING CASE:

- Press the power button on the charging case to check the battery level. 4 LED lights indicate 75-100% capacity, 1 light indicates less than 25% capacity.
- Using the included micro-USB cable plug the small end into the micro-USB port on the back of the charging case and the other end into any 5V USB port on your computer, wall/car charger, etc.
- The LED indicator lights will light up and start to flash to indicate the level of charging.
- Once fully charged the LED lights will turn off. Approximate charge time is 2 Hours.
* Note: the case can charge the earbuds while charging itself.

PAIR & CONNECT WITH A NEW DEVICE

- With the earbuds powered off, press & hold the power button on the earbud for 3-4 seconds until the LED light flashes red & blue.
  NOTE: If your earbuds are already turned on, you must first power off the earbuds before completing the above step.
- On your Bluetooth®-enabled smartphone, tablet or media player, navigate to the Bluetooth settings menu to turn on the Bluetooth® feature and search for new devices.
- After a few seconds you will see "MERKURY E003T" listed.
- Tap this model to select it. The LED will begin to slowly blink blue, and the earbud will emit a tone to indicate that it has been successfully paired with your device.
- Press & hold the power button on the left earbud for 2-3 seconds. The earbud will power on and automatically connect to the right earbud.
  NOTE: If your device asks for a password to connect to the earbuds, enter "0000."

PLAY & CALLS

- Connect your device to these earbuds via Bluetooth (see "Pair & Connect with a New Device.")
- Open your favorite music app and press play.
- Press the power button once to play/pause music & answer/end calls. Press & hold for 2 seconds to skip tracks.
- All audio, including music, games, videos, and notifications will be routed through the earbuds.
- Phone calls will only work throught the right earbud.

RECONNECT TO YOUR DEVICE

- You only need to pair your Bluetooth device with these earbuds once.
- With your device's Bluetooth feature turned on and in range, power on the left & right earbuds.
- They will automatically connect to each other and to your smartphone.
- If you have a previously paired device that does not auto-reconnect, navigate to the Bluetooth settings menu on your device and select "Merkury E003T" from the list of paired Bluetooth devices.

POWER ON/OFF

- Press and hold the power buttons on the earbuds for 3-4 seconds, the LED light will begin to flash.
- To power off, simply place the earbuds back into the charging case and they will automatically power off. Alternatively you can manually press and hold the power buttons for 3-4 seconds.
