

Product manual

Ambient Mood Lamp Speaker

Packaging accessories: speaker * 1, instruction manual * 1, bracket * 3, base * 1, charging cable * 1,Remote control * 1

Indicate

① Horn port ②Type-C charging port/touch button ③ Speaker bracket ④ Mobile phone bracket ⑤ Pen holder

Touch function

	Power on		Tap for 3 seconds
	Shutdown		Tap for 3 seconds
	Night light color		Tap lightly

Remote control

After turning on the speaker, you can use the remote control to change the color of the night light. For the first time using it, you need to remove the bottom transparent shield. The remote control can turn off the night light (press the LED button), play, pause, adjust the volume, and go to the previous or next track.
(PS: After using remote shutdown, it is also necessary to use remote startup)

Connect

Single connection: Turn on the device and enter Bluetooth mode. Open the phone and search for the speaker pairing name. Click on connect to connect.

Parameter

Product Name	G5	Charging port	TYPE-C
Wireless version	V5.3	Battery	3.7V/1200mAh
Output power	5W4 Ω * 1	horn	52mm*1PCS
Charging time	About 2 hours	Product weight	451g
Distortion rate	<1%	Format	MP3
Wireless range	10-30 meters	Product size	18.5*12*16.5cm

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

The device has been evaluatec to meel general RF exposure requirement. The device can be used in portable exposure condition without restriction.
