Note

- 1. The multimedia functions of keyboard are not available in Mac OS.
- 2. The keyboard and mouse are only workable with AA alkaline dry battery. Please take out the battery and keep it properly when it is not used for a long time, so as not to corrode the parts.

Solutions for Connecting Problems Mouse

- 1. Plug USB receiver in computer port after the mouse is installed with battery, and keep the distance between receiver and mouse within 20cm.
- 2. Simultaneously press scroll wheel button and right button for over 3s and the mouse will enter code paring mode.
- 3. It indicates the successful pairing if the mouse movement is responsive on computer screen in 20s.

Keyboard

- 1. Turn on the switch after the keyboard is installed with batteries.
- 2. Plug USB receiver in computer port and keep the distance between receiver and keyboard within 30cm.
- 3. Simultaneously press "ESC" button and "K" key for over 3s and the indicator light turns on showing that keyboard enters code paring mode.
- 4. The indicator light of keyboard will go out if the code pairing is successful.

Note

If the product is still unworkable after above solutions, please repeat those steps for code pairing again. If your problems can't get solved yet after that, please contact our customer service for help **(Email: csforcustomer@gmail.com)**.
