4. Please check USB cable if the headphone can't be charge.
5. Please adjust the volume from your mobile or long press Vol+ if you can't hear any sound.
6. The sound may have a bit noise if there's environmental interference.

WASHING INSTRUCTIONS

The whole product is not waterproof, just the outside sleep mask can be washable.

1. Get the hidden headphone taken out from the inside holes of the sleep mask. Be caution of the cables inside of the unit, and get them out by gentle power, just in case a strong power to break it.
2. Hand wash only.
3. Water under 40°C (104°F)
4. Don't tumble dry
5. Do not bleach

HEADPHONE ASSEMBLY INSTRUCTIONS

When assembling the headphones, please pay attention to the direction of the earphones.

The mark "L" is the left side, and the mark "R" is the right side; the ones with letters (L, R) face front, and the ones without letters face rear. Installing it in the wrong direction will cause the volume to sound low.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B Digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
