Re: 'No FCC ID on Module Label' Justification Letter

The module [FCC ID: 2ADHKBZR] (7.5 x 10.5mm) is too small to put the FCC ID on the module and to be readable (smaller than 4-6 points). We would like to apply for your permission to add the FCC ID on the Datasheet and additionally on the shipping package instead of the module.

The OEM installation manual will provide detailed instructions for the Host manufacturer how to label the final Host Device correctly. Here is the sample label which will be shown in the OEM installation manual:

Contains Transmitter Module FCC ID: 2ADHKBZR

Or

Contains FCC ID: 2ADHKBZR

This device complies with Part 15 of the FCC rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

A handwritten signature in black ink that reads 'Steve Caldwell'.
