MANUAL STATEMENT

ITRONIX CORPORATION

PC USERS MANUAL:

FCC regulations require that radio operators with the following.

Warning ... The Itronix Corporation Model T5200 Wireless Mobile Workstation was found to be compliant with FCC RF exposure requirements for the uncontrolled/general population exposure environment with these operating conditions. While the device is operating, its antenna must be at least 29mm (1.25 inches) from all persons in order to comply with the FCC RF exposure limit. Operators should ensure that when this device operates, its antenna is at least 29mm (1.25 inches) from nearby persons for meeting RF exposure limits.
