Board View 1****EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, identified as a solder board-component, placed on a blue textured surface. The component is rectangular and populated with various electronic components, including integrated circuits, capacitors, and resistors. A white cable with a connector is attached to the right side of the board. Two metal rulers are positioned horizontally and vertically to provide scale. The vertical ruler on the left shows centimeter markings from 1 to 19. The horizontal ruler at the bottom shows centimeter markings from 1 to 19. The component is approximately 10 cm long and 2 cm wide.
Solder Board-Component View 2	 A photograph of the same green printed circuit board (PCB) component from a different perspective, showing the underside or a different side. The component is populated with various electronic components, including integrated circuits, capacitors, and resistors. A white cable with a connector is attached to the top edge of the board. Two metal rulers are positioned horizontally and vertically to provide scale. The vertical ruler on the left shows centimeter markings from 1 to 18. The horizontal ruler at the bottom shows centimeter markings from 1 to 18. The component is approximately 10 cm long and 2 cm wide.

Solder Board-Component View 3	 A photograph of a circular green printed circuit board (PCB) component with a white cable attached. The component is positioned on a blue textured surface next to a metal ruler. The ruler has two scales: a vertical scale on the left marked in centimeters (1 to 18) and a horizontal scale at the bottom marked in millimeters (1 to 19). The component is located between the 4 cm and 6 cm marks on the vertical scale and the 2 mm and 4 mm marks on the horizontal scale. The white cable extends from the component towards the top right, ending in a small yellow label.
Solder Board-Component View 4	 A photograph of the same circular green PCB component with a white cable, viewed from a different angle. It is placed on the same blue textured surface next to a metal ruler. The vertical scale on the left is marked in centimeters (1 to 20), and the horizontal scale at the bottom is marked in millimeters (1 to 23). The component is positioned between the 4 cm and 6 cm marks on the vertical scale and the 2 mm and 4 mm marks on the horizontal scale. The white cable extends from the component towards the top right, ending in a small yellow label.
