- Vintage Vinyl speaker
- Micro USB charging cable
- User manual
- 3.5mm Audio cable

INTERNAL BATTERY CARE

- Be sure to charge the speaker fully, before use
- Do not overcharge - Charging takes 2-3 hours, overcharging may severely affect battery life.
- Speaker may lose charge if not used for a long period
- Only use included cable for charging this device
- Indicator light will turn red when charging and blue when fully charged

PAIRING BLUETOOTH SPEAKER

1. To pair the device, turn the mode switch to Bluetooth. The speaker will automatically await pairing.
 2. From your smartphone or tablet, find a list of nearby devices and choose "SA-VNYL"
 3. Enter "0000" if asked. The speaker will "beep" when the pairing is complete.
- If the speaker has been paired prior, it will connect automatically

SAFETY GUIDELINES

- Please read the instruction carefully before use and keep them for reference.
- Keep the speaker away from heat and open fire
- Do not insert sharp objects and metal into the speaker to avoid a short circuit.
- Do not attempt to repair the speaker
- Turn the device off if exposed to extreme heat or liquid
- Do not attempt to use the speaker with AC input, be sure the device is unplugged from power and charged before each use.

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RADIATION EXPOSURE STATEMENT

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
