Federal Communications Commission

Re: Transfer from 3M Traffic Safety and Security Division FCC ID to Neology

To Whom It May Concern:

The letter grants authorization for representative of Neology to apply to the FCC for a change in identification. This authorization applies to 3M Traffic Safety and Security Division, now known as Transportation Safety Division, FCC ID M4Z1000 granted on October 14, 2014. The equipment is electrically identical. The only change being the label on the device. The original test results, technical information and relevant documents continue to be representative of and applicable to the changed equipment.

Should there be any question, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Kim Clark-Ferris". The signature is written in a cursive, flowing style.

Kim K. Clark-Ferris
