

<b>SETUP</b>  <b>1</b> Download the Petcube App and register your account   <b>2</b> Power up the camera and wait for yellow light to flash   <b>3</b> Press the Setup button on the side speaker above the USB port until you hear a sound   <b>4</b> Follow instructions in the app to finish the setup	<b>PLACEMENT</b>  It's best to point Bites 2 Lite in the direction where your pets spend most of their time so their activities are captured with the wide-angle lens.   If placing on a table or a shelf, put Bites 2 Lite at least 3 feet above the floor. A rubber foot at the bottom provides a firm grip on the surface. 	If you want to hang the camera on a drywall, anchor screws are included in the packaging for easy and secure setup.   Wall mounted position gives extra protection from eager pets and allows for the best room coverage. 	<b>DISPENSER SETUP</b>  <b>Detachable Treat Container</b>  Detach the treat container by pushing the release buttons on both sides and pulling it up away from the base.   <b>Control Treat Portions</b>  3 orange inserts help control how many treats you fling at once. Usually it flings 1-3 treats at a time. The insert for medium-size treats is preset by default. For small and large size treats, use the other included inserts. 	<b>TREAT COMPATIBILITY</b>    Petcube Bites 2 Lite is compatible with a variety of treat brands. We recommend dry crunchy treats with dimensions of 1" or less.  Use your pet's favorite compatible treats. Keep in mind that the size of treats you are using may affect the amount of treats that come out of the device.
