

280MM

210mm

Operation Instruction:

- 1) Open the battery cover of the receiver, put one 18650 battery into the receiver battery compartment.
- 2) Put 6.35mm plug of the receiver into the mixers/amplifiers/portable speakers, etc.
- 3) Switch ON/OFF button of the receiver, and turn on it. The Indicator A will keep blue light flashing when receiver is turning on; when handheld micro is turning on and the signal of the handheld micro catch the signal of the receiver, then indicator A will keep blue lighting (NOT flashing).
- 4) Open the battery cover of the handheld micro, put one 18650 battery into the micro battery compartment.
- 5) Turn on the handheld micro. Then handheld micro will match the signal of the receiver, blue flashing light of the receiver will keep blue lighting (NOT FLASHING).
- 6) When charging receiver, indicator B of the receiver keeps long-time red. The red light will turn off when it is charging full.
- 7) After turning on this wireless micro system, if you short press ON/OFF button of the handheld micro, the micro will keep MUTE function.

Tips for Improving System Performance:

- 1) Avoid putting the receiver near metal surface or any digital equipment (CD players, computers, etc.)
- 3) Transmitting devices, such as cellular phones and two-way radios, may interfere with wireless audio transmission. Keep your transmitters be away from those and other potential sources of interference.
- 4) The microphones sets should be away from the fire, oil, liquid, etc..
- 5) When the microphone system is not being used, please take out the batteries from the handheld micro and receiver, and pull out the receiver from the devices, and then turn it off.

USER MANUAL

WIRELESS MICROPHONE SYSTEM

Receiver Technical Parameters:

1. Frequency Range: 2.4G
2. Frequency Response: 20Hz-30KHz
3. Working Current: 20mA~30mA
4. Charging Current: 450mA
5. Mode: Quartz Crystal Oscillation

Transmitter Technical Parameters:

1. Frequency Range: 2.4G
2. Frequency Response: 20Hz-30KHz
3. Working Current: 20mA~30mA
4. Charging Current: 450mA
5. Mode: Quartz Crystal Oscillation

Packing List:

- 1) Receiver-----x 1PC
- 2) Handheld Micro-----x 2PCS
- 3) 18650 battery-----x 3PCS
- 4) Rubber Ring-----x 2PCS
- 5) Recharging Cable-----x 1PC
- 6) Manual-----x 1PC

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
