

WARNING! This is not a toy. Listening to Excessively loud music for a prolonged period can damage your hearing

105 mm

BATTERY INSTRUCTIONS:
Requires 1 X Li-ion Polymer Rechargeable Battery (Included but not replaceable). USB rechargeable battery built into speaker. To charge connect speaker to USB port using cable provided. Only use USB cable provided. Only use battery provided, do not attempt to replace the battery. This product has no user serviceable parts.

IPX4 Splash Proof Warning. This item is splash proof, not to be submerged under water.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

POWER SPECIFICATION:
Input: DC 5V
Output: 2W
Capacity: 300mAh _____
Charging time: 1.5hrs
Operating time: 3hrs
Range: >= 10M
Transmitting Frequency: 100Hz-20KHz
Battery: 3.7V 300mAh Li-ion battery
Environment Working Temperature: -40°C to +85°C
Operating Frequency: 2.402GHz-2.480GHz
Maximum Radio Frequency Transmitted: -0.58dBm
