INFORMATION

SPECIFICATIONS

· Bluetooth Version: 5 .0

· Bluetooth Profiles: HSP, HFP, A2DP and AVRCP

· Bluetooth Distance: Within 10 meters

· Output Power: 3W+3W

· Power Adapter: DC 9V 2A

· Driver Unit: 4Ω 3W 2in

· Frequency Range: 40Hz-20KHz: 40Hz-20KHz

· S/N Ratio: >65dB

· Distortion Rate: <1%

· FM Frequency Response: 87.5 - 108MHz

· USB Charging Port Output: DC 5V 1A

· Wireless Charging Current: 5V 1A / 9V 1.1A

· Wireless Charger Output: 10W

· Wireless Distance: 6mm

· Wireless Charging Efficiency: 70%~80%

· Product Size: 138(L)×138(W) × 60(H)mm

POWER ON

Connect the power cable into the jack on the bottom of the device labeled "DC 9V",and then plug the power cable into the socket. The LCD display will show "0:00".

SETTING THE TIME

- Under any mode, press ⊙ on the rear of the unit.
- The hour digit and minute digit will flash. Press ⊙ / ⊙ to set the hour and press ⊙ to confirm.
- Press ⊙ / ⊙ to set the minute and press ⊙ to confirm the setting.(It exits the setting in 5 seconds if no operation on any key.)
- Press ⊙ to select the 12H or 24H mode when time setting is done.

SETTING THE DAYLIGHT-SAVING TIME

- Press ⊙ on the rear of the unit to display the daylight-saving time. The "DST" symbol will display on the LCD display. To display the standard time, Short press ⊙ then the"DST"symbol will disappear from the LCD display.

ALARM OPERATION

Before setting the alarm time, make sure Clock has been set.
Setting the alarm 1
Press ⊙ on the top of the unit to turn on the alarm 1. The alarm 1 symbol will flash on the display. Press ⊙ or ⊙ on the top of the unit to select an alarm sound source: BU and RAD, and press ⊙ to confirm. The hour digit will flash on the display. Press ⊙ or ⊙ to set the hour. Press ⊙ to confirm. The minute digit will flash on the display, short press ⊙ or ⊙ to set the minute, then short press to confirm the alarm 1 setting.

It confirms the setting and exits automatically in 3 seconds if no operation on any key.
Note: If the RAD alarm sound source is selected for the alarm, please store the FM radio station firstly. The last stored FM radio station will be the default alarm sound source. When catching your favorite station, press ⊙ on the top of the unit to stop the auto scanning, then your favorite radio station is the default alarm sound souce.

- Setting the alarm 2 is same as setting the alarm 1. The alarm 1 is one-off alarm. The alarm 2 works everyday.
Activating and deactivating the alarm
- If the alarm is activated, the display will show the ⊙ symbol and/or the ⊙ symbol .
To deactivate the alarm:
- Press ⊙ or ⊙ on the top of the unit, the alarm symbol will disappear from the display.

Stop the alarm

When the alarm sounds, the alarm will gradually increase in volume for a more pleasant awakening.

- Press ⊙ or press and hold SNOOZE for 3 seconds to turn off the alarm 1. The alarm will last for 30 minutes if no button is pressed. The alarm 1 will not work in the next day when it is deactivated.
- Press Alarm 2 or press and hold SNOOZE for 3 seconds to turn off the alarm 2. The alarm will last for 30 minutes if no button is pressed. The alarm 2 will work again in the next day.

Snooze Function

Press SNOOZE to stop the alarm temporarily for about 9 minutes once the alarm is activated. The snooze function symbol will appear on the display. The alarm sounds will stop and sound again after about 9 minutes. Press and hold SNOOZE for 3 seconds or Press (⏰) / (⏰) to turn off the alarm.

FM RADIO OPERATION

Fully extend and reposition the wire aerial at the rear of the unit for optimum reception.

Auto scan and save preset stations

● Repeatedly press (MODE) to select the radio mode.
  The radio symbol and frequency will be shown on the display.
● Press (SCAN) to start auto scanning.

BLUETOOTH MODE OPERATION

Paring with a Bluetooth-enabled device

● Press   (MODE) on the top of the unit to select the Bluetooth mode.
  The Bluetooth symbol will flash on the display, indicating that the unit is trying to pair with a Bluetooth enabled device.
● Go to the Bluetooth setting on your Bluetooth enabled device .Search and connect to "D8qi".
  The Bluetooth symbol will stop flashing when your Bluetooth device has been paired successfully. An audible alert "Du" will sound.

● Bluetooth will be disconnected when the mode is switched or the unit is off.
● Once the Bluetooth device is connected for the first time, the unit will remember the paired setting and will automatically reconnect to the same Bluetooth device the next time they are in range.
● If the unit can not pair with the Bluetooth device successfully within 3 minutes, you will hear a "DUDU" warning tone. The unit will turn off the Bluetooth mode automatically.
  When the unit is successfully connected and no music
● plays from the Bluetooth device within 18 minutes, the unit will also turn off the Bluetooth mode automatically.

Disconnecting with a Bluetooth-enabled device

● Bluetooth will be disconnected when the mode is switched or the unit is off.
● Press and hold (▶II) for 3 seconds to disconnect with the Bluetooth device

LISTENING TO MUSIC

Once the unit has been successfully paired to your device, you can listen to music.

● Adjust the volume on your device to the desired level.
● Repeatedly press (◄») or (◄») on the top of the unit to adjust the volume of the unit.
● Press   (▶II) to pause, Press   (▶II) to resume play.
● Repeatedly press (▲) or (▼) to select the previous or next song.
● When you want to playback from another Bluetooth device, disconnect the speaker from the Bluetooth device already in use.

HOmtime

ADJUSTING DISPLAY BRIGHTNESS

Repeatedly press ⟨ SNOOZE | DIMMER ⟩ to select the desired level of display brightness (High-Medium-Low-Off).

USB CHARGING

- To charge your USB-compatible devices, plug them in the USB port on the rear of the unit and turn the unit on.
- The charging symbol will light up to indicate charging. The symbol will disappear from the display when the device is fully charged.

BACKUP BATTERY

The battery used for the unit is one CR2032 battery(included). You can only use AC power as power supply. The battery is only for backup purpose.

If the system is unplugged or if a power failure occurs, the clock and alarm time settings of the unit will be erased unless there is a battery in the unit.

WIRELESS CHARGING

Put the Qi receiver-enabled device on the top of the unit, where the Qi logo is printed. During wireless charging, the symbol will be on the display. It will disappear from the display when the device is fully charged. The symbol begins to flash quickly when abnormal charging happens.

IMPORTANT NOTES ABOUT WIRELESS CHARGING

a. If your device does not support wireless charging, please purchase a wireless charging case separately.
b. Use only the approved power supply, otherwise, it will cause danger.
c. Do not put a wireless charging case on the unit separately, which may cause the charging surface too hot and then cause fire disaster. It may cause serious burns or device failure.
d. To charge a device without wireless charging function, please put on a wireless charger case for your device, then put it on the unit for wireless charging.
e. Do not put any foreign objects including metal, magnetic absorbers and IC cards in the charging detective area, which may cause abnormal charging or damage the unit because of too much heat.
f. Please take always the device from the charging area when the device is fully charged.
g. Please place the device on the charging area correctly to make sure the wireless charging works properly.
h. Over 6mm thickness phone case may result in charging intermittently or discontinued. Please take off the phone case before charging.
j. During wireless charging, if connecting power supply to the phone device, it will stop the wireless charging.

CARE AND MAINTENANCE

Read the following recommendations before using the unit . Following these you will be able to en-joy our product for many years.

1. Keep the product dry and don't put it in the damp place to avoid the product's internal circuit being affected.

2. Keep the product away from direct sunlight or hot places. High temperature will shorten the life of electronic devices, destroy the battery or distort certain plastic parts.

3. Don't expose the product to cold areas as it may damage the internal circuit board.

4. Don't try to disassemble the product as it may get dam-aged if you are not professional.

5. Don't let the product fall down onto the floor or other hard surfaces. The internal circuit might get damaged.

6. Don't use intensive chemical products or detergent to clean the product.

7. Don't scratch the surface with sharp things.

FAQs

What to do when my mobile phone can not search and find the unit ?

If the unit is not in paring mode, your mobile phone can't find it. Please make sure the unit is in pairing mode and in the effective working range.

How far is the effective range between the unit and Blue-tooth mobile phone?

According to the Bluetooth standard, the max. controllable range of Class II handsfree kit is 10 meters. But it varies with different environment and paired mobile phone.

Poor radio reception?

1. Keep the clock radio away from other electronic devices to avoid radio interference.

2. Fully extend and adjust the position of the FM antenna.

No response from the clock radio

Disconnect and reconnect the power cavlllllleee, then turn on the clock radio again.

Clock/alarm setting erased

1. Power has been interrupted or the power plug has been disconnected.

2. Reset the clock/alarm.

3. Back up battery was dead, so please change it.

When you use the USB power supply cable, it can occur that a charging delay and being not charged phenomenon. To charge battery effectively, please use the AC adapter. (*extra buying)

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

RF warning for Portable device:
The device has been evaluated to meet general RF exposure requirement.The device can be used in portable exposure condition without restriction.

RF warning for WPT device:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15cm surrounding the device and 20 cm above the top surface of the device must be respected.
