

February 8, 1999

Greg,

While reviewing some of the data for this submittal I noticed that I sent you photos for both pieces of equipment that were tested together. I should have only sent you the photos for the "Reader", which is the transmitter portion. I also sent you photos for the "Computer", or receiver portion. The submittal is only for the transmitter portion.

In all of the attached photos I have them labeled either "reader" or "computer". Please disregard all of the "computer" photos. I am sorry for any confusion this may present.

Sincerely,

Joyce Walker  
CKC Technical Writer
