3

How to Select the DPI
The two buttons on the top of mouse are set to DPI+ / DPI – as default. Please press the two buttons to change DPI value. The scroll wheel light breathes in colors as: Red(500dpi),Blue(1000dpi),Green(2000dpi),Purple(3000dpi),Yellow(4000dpi).

How to Select the Polling Rate
Press the button on the bottom of mouse to change the polling rate of the mouse. The scroll wheel light will flash in white. The flashing times shows the polling rate value as: one time for 125Hz, two times for 250Hz, three times for 500Hz, four times for 1000Hz.

How to Select the Light Effect
Press the Forward and Middle buttons together repeatedly to change the backlight effect. The effect changes in the following sequence: Mixing color flowing, purple light, Seven color cycling while breathing, Mixing color tracing, Neon light, Mixing color light on, Flashing in purple and green, Starry night twinkling, Seven colors waving, Off.

How to Recharge the Battery
When the battery is low, please recharge the batter in time.
Take out the USB A to USB-C cable and connect the mouse with a computer. While the battery is under recharging, the scroll wheel lights up in red and then in green when there is enough power.
The battery can be recharged for more than 300 cycle times. And you can use the mouse while it is under recharging.
Note: Slide the power switch on the bottom of the mouse to OFF for long term storage.

⚠ **Warning: Charging current: 5V═══2A max**

How to Reconnect the Mouse with the USB Receiver
The mouse may lost connection with the USB receiver for some occasional reasons such as strong magnet, violent vibration. So you may need to reconnect the mouse with the USB receiver. In this case, unplug the receiver and plug it back again. Slide the power switch on the bottom of the mouse to ON, press and hold the Left, Middle and Right

4

---
