Let's Do It

INCLUDED

Camera

Mounting
Bracket

Masonry/Drywall
Anchors
(Used When Applicable)

Phillips
Mounting Screws

Power Supply &
Power Cord

YOU'LL NEED

Phillips Screwdriver

1/4" Drill Bit
(xx drill bit if using anchors)

Ladder

You Got This!

And we're here to help.

For in-depth instructional videos and a guided tour through the installation, go to cyncsupport.gelighting.com or call 1-844-302-2943.

NOTE: Please make sure your system is up-to-date, and you update the firmware when prompted for the best experience.

Choosing a Location

Avoid direct sunlight

Stay within 24' of outlet
(24' length must account for horizontal
and vertical direction)

Stay within 30' of router

Do not obstruct

TIP: Plug in and hold the camera where you want it, and then have another person check the Cync App to see if the camera covers the preferred areas of your yard

Mount the Base

STEP 1

Choose the location where you wish to install your camera and verify your camera is connected to Wi-Fi by checking the signal strength under settings in the Cync App

STEP 2

Place the bracket where you wish to install the camera

STEP 3

Use the bracket to mark the holes

STEP 4

Drill holes with a 1/4" drill bit

STEP 5

Screw in the mounting plate

Attach the Camera

STEP 1

Identify the two notches at the bottom of the mounting plate

STEP 2

Route the cord through the notches so that the cord going to the outlet is flush with the wall

STEP 3

Align the red notch on the base of your camera with the red notch on the mounting plate

STEP 4

Slide the camera base onto the mounting plate until it clicks in place

Adjust the Position, Plug In Camera & Finish Set Up

STEP 1

Plug your camera in to the desired outlet

STEP 2

Optional: Attach your cord to the siding or ceiling for more discreet mounting

STEP 3

Adjust the camera to the desired angle (use the camera view in the Cync App to verify the view before locking the ball joint)

STEP 4

Turn the camera neck clockwise to tighten the ball joint and lock your camera in place

You're all set!

Use the Cync App to check out your camera's live feed and select your motion settings and zones under your camera's settings.

Congratulations!

You've completed the Cync Outdoor Wired Smart Camera installation

Additional Information and Warnings

FCC Statement

⚠ Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Radiation Exposure Statement Caution:

To maintain compliance with the FCC's RF exposure guidelines, place the product at least 20cm from nearby persons.

IC statement

This device complies with RSS247 of Industry Canada. Cet appareil se conforme à RSS247 de Canada d'Industrie. This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. appareils radio exempts de licence. Son fonctionnement est sujet aux deux conditions suivantes: (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

The device must not be co-located or operating in conjunction with any other antenna or transmitter.
