RE: FCC ID: MQ4WAP253_ATCB002422

Attention: Jerry Liu

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the device appears to be sufficiently large to accommodate the 2-condition statement as required by part 15.19. Please provide a label showing the location of this statement on the device.
2. Please note that page 16 of the manual (page 21 of the pdf document) indicates a country selectable parameter. Please note that this is not allowed for devices used in the US. No device used in the US can have any user accessible control which would cause the device to operate on non-US frequencies. Please explain how this feature is disabled for US products and how this device is made so that no non-US frequency can be selected.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
