1. Bluetooth not connected
- The scale and smart phone must be both have Bluetooth on.
- Check the iOS version of smart phone, it must be iOS 8.0 or higher/Android 6.0 higher.
- Click Account →Device→ +→ Searching Bluetooth for paring to find the scale (Keep scale on) Connect, and now your phone is connected with the scale.

2. No body fat data measured when weighing
- User must be barefoot to measure the body fat.
- Make sure your feet and the scale are both dry.Scale not finishing weighing when the number display is flashing (Keep standing on the scale around 30 second until the number on the display stops flashing).
- Bluetooth is not turned on.
- Bluetooth is paired with a difference scale.

3. The scale is producing inconsistent weight.
- Check whether the scale is on a hard, flat surface.
- Check each sensor foot on the back to make sure nothing is stuck to the bottom of it.
- Remove the batteries to restart the scale.

4. The App is display the incorrect fat-muscle ratio
- The body parameter setting is incorrect, check to make sure that you enter the correct gender, height, and age.

5. How do I re-calibrate the scale after moving it or change the batteries?
- Step on the scale to turn it on. Let it automatically drop to 0.0lb to calibrate.

6. The scale does not turn on
- Remove the batteries and put it back. Make sure to insert the batteries in the correct direction.

7. Scale only show weight & BMI?
- For first time use for every user, need to use on-line mode, connect with App for successful measurement. Otherwise, scale will only weight & BMI.
- Keep feet apart, and bear feet onto scale platform, face to display direction. Otherwise, scale will only weight & BMI.
- Keep stand still for about 20-30s to finish the whole measurement. Otherwise, scale will only weight & BMI.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
