

<h1>Product Specification</h1> <p>Bluetooth Antenna</p>		 <p>Page 1 of 1</p>
---	--	--

Antenna Type: The Bluetooth antenna is a patch antenna located on the lower portion of the rear cabin bulkhead of the vehicle.

Specification of electrical parameters for the Bluetooth antenna

	Min	Target	Max
Frequency (MHz)	2400.0		2483.5
Power output capability (dBm)	4		
VSWR			2.5:1
Impedance (Ohm)		50	
Temperature – Storage (°C)	-40		+85
Temperature – Operation (°C)	-40		+85
Gain (dBi)	0
