Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'View 3', placed on a blue textured surface. The component is rectangular and populated with various electronic components, including several electrolytic capacitors, resistors, and a central integrated circuit (IC). A black L-shaped ruler is positioned next to the component for scale, with the horizontal ruler showing measurements from 0 to 100 mm and the vertical ruler showing measurements from 0 to 60 mm.
Solder Board-Component View 4	 A photograph of the same green PCB component, labeled 'View 4', showing the reverse side. This view highlights the solder joints and the underside of the components. A black L-shaped ruler is again used for scale, with the horizontal ruler showing measurements from 0 to 100 mm and the vertical ruler showing measurements from 0 to 60 mm.

Solder Board-Component View 5	 A photograph of a green printed circuit board (PCB) component, labeled 'View 5'. The component is rectangular and populated with various electronic components, including several electrolytic capacitors, a central integrated circuit (IC), and various surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 6	 A photograph of a white printed circuit board (PCB) component, labeled 'View 6'. The component is rectangular and features a large, prominent silver-colored heat sink on the left side. Other visible components include electrolytic capacitors, a transformer with red and yellow windings, and various surface-mount components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
