- the company reserves the right to Improve the product. Specifications and designs are subject to change without prior notice! Please refer to the actual product.

Name and Content of Hazardous Substances in the Product										
Part Name	Toxic and Hazardous Substances or El ements									
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent chromium (Cr6+)	Polybrominated bipher.yls (PBB)	Polybrominated diph enylethers(PBDE)				
Motherboard	х	0	0	0	0	0				
Display	0	0	0	0	0	0				
Plastic structural member	0	0	0	0	0	0				
Metal structural member	х	0	0	0	0	0				
Battery	х	0	0	0	0	0				
Attachment	х	0	0	0	0	0				

- O: Indicates that the content of the toxic and hazardous substances in all homogeneous materials of the part is below the limit requirements specified in the Standards for Limitation Requirements of Toxic and Hazardous Substances in Electronic Information Products.
- X: Indicates that the content of the toxic and hazardous substances in at least one of the homogeneous materials of the component exceeds the limit requirements specified In the Standards for Limitation Requirements of Toxic and Hazardous Substances in Electronic Information Products.

Notos

components.

- 1. The parts marked with "X" in the above table meet the requirements of EU RoHS regulations (exempt part).
- Circuit Board Assembly: Include the printed circuit board and its parts, electronic components, solder joints;
 Depending on product model, the product you purchase may not contain all of the above

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
