Don't throw yours device in a fire to dispose it. The internal battery may explode.
Don't try to disassemble your device. There are no user serviceable parts inside it.
Try not to drop your device and keep it away from sharp objects such as keys in your pockets.
Only charge your device from 5V USB ports such as phone chargers and laptops or PCs.
Never listen to music at high volumes or you may permanently damage your hearing.
Pay attention to your surroundings and never wear any headphones while riding, driving or walking in traffic. You do not come with any warranty.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interferenceto radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
