Wireless Charging  User Manual Thank you for choosing the Wireless Charger. Please read this user manual carefully before use and keep this manual in a safe place for future reference.	Safety Precautions 1.DO NOT place or use the product in the high-temperature environment such as intense sunlight and fire (Note: There may be explosion if the product is in the environment over 212°F/100°C). 2.DO NOT use the product in excess of its output rating to avoid fire or injury. 3.DO NOT expose the product to rain or snow. 4.Non-professional personnel are not allowed to modify, repair or disassemble the product without authorization. 5.Please remove your phone case before charging if the thickness > 4mm/0.16in. 6.Keep out of reach of infants and children. Note: To ensure the safe and efficient charging of 3 devices, it is imperative to utilize a 9W/2A adapter (Qualcomm Quick Charger 2.0 or 3.0) in conjunction with a quick charging cable. Failure to employ the suitable adapter and cable may result in the charger's inability to charge a phone or 3 devices simultaneously, and could potentially lead to charger damage. Specifications Product Input: 9V=2A Output: For iPhone 7.5W Max For AirPods 5W Max USB-C/ USB-A Output: 5V=1A	Product Overview  Package Contents Wireless Charger * 1 Type-C Charging Cable (1m/39.4in) * 1 18W Adapter * 1 User Manual * 1	HOW TO USE  HOW TO USE 	Compatible Devices 1. Phone: iPhone 15 Plus/ 15 Pro Max/ 15 Pro/ 15/ 14 Plus/ 14 Pro Max/ 14 Pro/ 13 Pro Max/ 13 Pro/ 13 Mini/ 12/ 12 Pro/ 12 Pro Max/ 12 Mini 2. Earbuds: AirPods Pro 2nd Generation/AirPods 3 MagSafe/AirPods Pro MagSafe/AirPods Pro/AirPods 2nd Generation (Model: A1938) About Indicator Lights 1. Power On Status: The orange light will turn on for 3 seconds and then turn off. 2. Standby Status: There will be no indicator light display. 3. Charging Status: When the phone is being charged, the orange light will turn on for 3 seconds and then turn off. (Note: There will be no indicator light display when the earbuds/ watch is being charged.) 4. FOD (Foreign Object Detection): In the phone charging area, if a foreign object is detected, the device enters the protection mode (Note: The orange indicator light keeps
flashing quickly) and stops charging. If the earbuds case or watch triggers FOD, the earbuds or watch module will stop charging/ there will be no indicator light display. 5. Fully Charged Status: There will be no indicator light display. How to Solve Abnormal Charging 1. Please use the included adapter. 2. Confirm whether your device has magnetic wireless charging function before use. 3. Check whether your phone wears a magnetic protective case. (Note: The thickness of the protective case is recommended not to exceed 4mm/0.16in.) 4. If there are foreign objects on the charging area, the charger will auto detect them and provide power off protection. (Note: Please remove foreign objects.) 5. When the temperature of the wireless charger is too high, it will automatically start the protection. Please unplug the power supply first and use the charger after it recovers the temperature. 6. When the abnormal charging situation occurs, please restart your phone or watch. Wait for the wireless charger to cool down, and try to remove the protective case of your phone to charge.	FAQs Q: How to install the Apple Watch module? A: Please refer to the pictures and instructional video on the product sales page for guidance. Q: Why does the product heat up? A: It is normal if the product heats up slightly during charging, which won't affect its safety and service life. Q: What safety protections does this product have? A: It has overcurrent protection, overvoltage protection, short circuit protection, overheating protection, and more. Q: Why can't the wireless charger charge my AirPods 2? A: 1. AirPods 2nd Generation (case) has two versions: A1602 and A1938. The A1938 AirPods support wireless charging, while the A1602 AirPods do not support wireless charging. If your AirPods model is A1602, the wireless charger cannot charge it. There are two versions of the AirPods 2 case, with one version having the indicator light inside the shell and lacking wireless charging function. However, our wireless charger can only charge another version of the AirPods 2 case that has wireless charging function and an indicator light located outside the shell. Please make sure to differentiate between the two versions. 	Warranty Statement The warranty period of this product is 24 months. From the date of purchase, you'll enjoy a free warranty within the warranty period with valid documents. Note: The following conditions are not covered by the warranty: 1.Unable to provide formal purchase certificate. 2.Damage caused by man-made or irresistible factors. 3.Accidental damage.
