Dear Chris,

Here are our replies.

Your Question

1) This device is a portable transmitter which requires RF Exposure information to be provided to the user. I could not locate this information in the Users Manual. Please provide this RF Exposure information in the Users Manual (please let me know if you need some guidance on the requirements).

Our Reply

The RF Exposure info to the user is added. Please refer to the attached file.

Your Question

2) The RF report has the RF Power listed 18.25dBm in 802.11g mode on page 4 and 14.2dBm in all other places in the application. If this is a typographical error, please correct this and re-submit the report.

Our Reply

Yes, it is a typo. Correction is made as attached.

Thank you for your kind notice.

Best Rgds,
WK

Dear CCS TW,

I have reviewed the application for Certification listed above and need the following item(s) addressed in order to complete the review:

- 1) This device is a portable transmitter which requires RF Exposure information to be provided to the user. I could not locate this information in the Users Manual. Please provide this RF Exposure information in the Users Manual (please let me know if you need some guidance on the requirements).
- 2) The RF report has the RF Power listed 18.25dBm in 802.11g mode on page 4 and 14.2dBm in all other places in the application. If this is a typographical error, please correct this and re-submit the report.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best regards,

Chris Harvey
