**LINKSYS**

Quick Start Guide
DUAL-BAND
WiFi 5 USB Adaptor

WUSB6300

**FRONT**

**BACK**

**You'll need to download and install drivers before using your adapter:**

1. On a computer with an internet connection, visit www.linksys.com/support/WUSB6300 in a web browser.
2. Click on Downloads/Firmware.
3. Choose Version 2.0.
4. Download the driver package for the version of your computer's operating system (Mac or Windows).
5. WIN: Unzip the folder and double-click the Setup.exe file and follow the on-screen instructions.
   MAC: Unzip the folder and double-click the Setup.dmg file and follow the on-screen instructions.

**If the computer you want to use the adapter with doesn't have an internet connection, find another computer that does, then:**

1. Visit www.linksys.com/support/WUSB6300 in a web browser.
2. Click on Downloads/Firmware.
3. Choose Version 2.0.
4. Download the driver package for the version of your computer's operating system (Mac or Windows).
5. Save the folder to a removable storage device.
6. Eject the storage device and insert it into the computer you want to use with the adapter.
7. Navigate to the drivers folder on the storage device.
8. WIN: Unzip the folder and double-click the Setup.exe file and follow the on-screen instructions.
   MAC: Unzip the folder and double-click the Setup.dmg file and follow the on-screen instructions.

If you can't set up your adapter with one of the above methods, visit linksys.com/support for more options.
