

iVAS Roam External Photos

VS8601

Notes

- Note 1. The device pictured is a pre-production prototype. There will be cosmetic differences compared with production units. The screen printed “Pharmagraph” logo will be replaced with the “iVAS Roam” logo. The colour and consistency of the USB port cover will be slightly different.
- Note 2. The label, which would normally be fitted to the underside of the unit, is missing as the final production labels have not yet been printed at the time of writing. The label will be fitted in the recessed area on the underside of the unit, and will include the marking showing the location of the second RFID antenna.
