Subject: Extended Frequencies Justification for Certification of Transmitter with FCC ID: ABZ99FT4100

Dear Sir/Madam,

In accordance with updated requirements pertaining to Publication KDB 634817, Frequency Range Listings for Certification Grants, Motorola Solutions hereby submits attestation that the transmitter described in this submission includes continuous frequencies that are not listed in rule part 90.

For the FCC's Rule Parts 22, 74, 80 and 90 applications, this radio is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc. Please note that Licensed End Users do not have access to any external controls that will allow them to program the equipment. Equipment programming is the responsibility of Authorized Service Personnel.

Also, the radio complies with 47 CFR Part 90.203(e) and 80.203(b), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

It is understood that a grant note code may be added to the grant which indicates this required operation.

If you require any additional information, please contact me at +604 224 0258.

Sincerely,

Arine Lee
Regulatory Compliance Engineer
