Cover Letter for re-use of Test Data

To Whom It May Concern:

The initial application has been granted according to 47CFR Part 15.247, 15.407 for FCC ID: KA2WL6720APA1; Granted on 06/10/2020.

The new equipment to be Granted in this new application, according to FCC ID: KA2BA3620PA1, only differs from initial version (FCC ID: KA2WL6720APA1) with the only one following point:

**1. The difference is FW version only, RF antenna/location/PCBA is the same.
Please refer to the Internal Photos exhibits (page 5)**

The change described above do not affect the radio characteristics (802.11a/b/g/n/ac) of the equipment. Consequently, radio test data retrieved from the initial application FCC ID: KA2WL6720APA1 can be re-used for the FCC ID: KA2BA3620PA1 equipment.

However, based on our knowledge and our engineering judgment of the device design, the changes made, the format and amount of spot-check test data are decided as below,

1. Sample amount: **1**
2. Spot-check rule part, frequency band and test items

Sample A		
FCC Rule Part	Frequency Band	Test Items
FCC Part 15C	2412-2462 MHz	1. Radiated emission – Band edge and Harmonics 2. Conducted output power 3. AC power conducted emission 4. 6 dB bandwidth measurement
FCC Part 15 E	5180-5240 MHz 5745-5825 MHz	

We, **D-Link Corporation** is taking full responsibility to re-use these test data for its new application FCC ID: **KA2BA3620PA1**.

If you have any questions, feel free to contact us. Thank you.

Sincerely yours,

ML Jean / Vice President
