Re: FCC ID: APV-2630GBT
IC: 5843C-2630GBT
M/N: LMU2630GB

Dir Sir and Madam,

The LMU-2630 family is a fleet management and tracking device that resides in private, it is a single box enclosure incorporating a processor, a GPS receiver, a wireless data modem, vehicle-rated power supply and Vehicle bus interface.

The LMU-2630 family also supports inputs and outputs to monitor and react to the vehicular environment and/or driver actions.

The LMU-2630 family contains the same Bluetooth board already certified by TUV under model: LMU30H30BT3 with FCC ID: APV-3030HBT and IC ID: 5843C-3030HBT.

In addition to the Bluetooth, The LMU-2630 has cellular module is Gemalto BGS2-W FCC ID: QIPBGS2 and IC ID: 7830A-BGS2

Sincerely,

Product Certification Manager
