

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing and board. The housing is a white, circular plastic shell. The board is a small, circular printed circuit board (PCB) with a black surface and a white 'C' shaped cutout. The components are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm.
EUT Housing and Board View 2	 A photograph showing the internal components of the EUT housing and board from a different angle. The housing is a white, circular plastic shell. The board is a small, circular printed circuit board (PCB) with a black surface and a white 'C' shaped cutout. The components are placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with markings for 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm.

EUT Housing and Board View 3	
Solder Board-Component View 1	

Solder Board-Component View 2	 A photograph showing a rectangular component with a gold-colored border and a black center, mounted on a blue textured surface. A black ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters, with the component's width being approximately 35 mm and its height approximately 15 mm.
Solder Board-Component View 3	 A photograph showing a small, dark, rectangular component mounted on a blue textured surface. A black ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters, with the component's width being approximately 10 mm and its height approximately 5 mm.

Solder Board-Component View 4	 A photograph showing a small electronic component, likely a solder bridge or connector, mounted on a blue textured surface. A black ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters (mm) and centimeters (cm).
Antenna View	Wireless Charger Antenna  A photograph showing two circular components, likely wireless charger antennas, mounted on a blue textured surface. A black ruler with white markings is placed next to the components for scale. A red box highlights the inner circular structure of the antenna on the left, and a red line points from the text "Wireless Charger Antenna" to this highlighted area. The ruler shows measurements in millimeters (mm) and centimeters (cm).
