- A. Status LED
- B. Mic mute / mic monitoring button
- C. USB-C charge port
- D. Microphone port
- E. Volume wheel
- F. Detachable microphone
- G. Microphone mute LED
- H. USB adapter
- I. Wireless pairing pin hole
- J. Wireless status LED

K. USB-C charge cable

### Usage

[Use the following line drawings:

- ¾ view of headset with microphone attached
- Wireless adapter
  - Arrow pointing from the USB adapter to PC USB port and PS4 USB port

]

[Reference images:

]

1. Connect the wireless adapter to your device
2. Power on the headset

### Setting up with PC

Right click speaker icon > Select **Open Sound settings** > Select **Sound control panel**

[Use Windows 10 1903 Setup speaker icon menu graphic and sound settings menu graphic]

[Reference images:

]

## Playback Device

1. Set Default Device to **"HyperX Cloud Core Wireless"**

[Use Windows OS playback sound control panel menu graphic for selecting HyperX Cloud II Wireless as Default Device]

[Reference image:

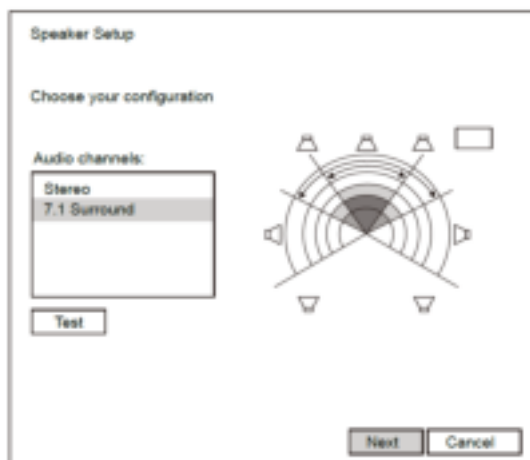

]

2. Right click on **"HyperX Cloud Core Wireless"** and click on Configure.
3. Select 7.1 Surround to configure your setup and click next.

[Use Windows OS playback sound control panel menu graphic for selecting speaker setup]

]

### Setting up with PlayStation 4

Settings > Devices > Audio Devices

Input Device: USB Headset **“HyperX Cloud Core Wireless”**

Output Device: USB Headset **“HyperX Cloud Core Wireless”**

Output to headphones: **All Audio**

[Use the following line drawing:

- Bottom view of headset with left earcup only
  - Small label “Status LED” with an arrow pointing to the status LED on the left earcup
  - Small label “Mic mute / mic monitoring button” with an arrow pointing to the mic mute button on the left earcup

]

[Reference image:

]

#### **Status LED**

Status	[LED]
Pairing	Flash green and red every 0.2s
Searching	Slow breathing green
Connected*	90% — 100%: Solid green
	15% — 90%: Blinking green
	< 15%: Blinking red

\*Battery level indication

#### **Mic mute / mic monitoring button**

- Mic mute toggle - Press button to turn the mic mute on/off
  - Microphone mute LED On – Mic muted
  - Microphone mute LED Off – Mic active
- Mic monitoring toggle – Hold button for 3 seconds to toggle mic monitoring on/off

[Use the following line drawing:

- Zoomed-in crop of the right earcup with focus on volume wheel
  - Small label “Volume wheel” with an arrow pointing to the volume wheel on the right earcup

]

[Reference image:

]

**Volume wheel**

Scroll up and down to adjust volume level.

**Charging**

It is recommended to fully charge your headset before first use.

[Use the following line drawing:

- Connect the USB-C charge cable USB-A end to PC and USB-C end to headset USB charge port

]

]

Status [LED]	Charge Status
Fully Charged	Solid green

15% — 99%	Breathing green
< 15%	Breathing red

### **HyperX NGENUITY Software**

Download software and latest firmware updates at  
[hyperxgaming.com/ngenuity](https://hyperxgaming.com/ngenuity)  
[\[NGENUITY logo\]](#)

### **Questions or Setup Issues?**

Contact the HyperX support team or see the user manual at [hyperxgaming.com/support/headsets](https://hyperxgaming.com/support/headsets)

**WARNING:** Permanent hearing damage can occur if a headset is used at high volumes for extended periods of time.

## **Federal Communication Commission Interference Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

**Radiation Exposure Statement:**

The product comply with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

## **Industry Canada statement**

This device complies with ISSED's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d' ISSED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

**Radiation Exposure Statement:**

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

**Déclaration d'exposition aux radiations:**

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.
