Subject: FCC Class II Permissive change for FCC ID: 2ABZ2-AA455

To whom it may concern:

This is to request a Class II Permissive change for FCC ID: 2ABZ2-AA455, originally granted on 2022.03.10.

The Major change filed under this application is as below:

Add LTE Band 41&41C power class 3 and 5G N41 power class 3 by software. The customer stated that the duty cycle is the same of 5G N41 power class 3 and power class 2.

As the concern above, we performed SAR/HAC test for LTE Band 41&41C power class 3. The other test results all come from the initial model of GN2200.

Thank you.
Sincerely,
