RE: Tadiran Telematics Ltd.

FCC ID: NTAXMETER3

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The newly updated label exhibit shows the entire label including the FCC statements, while the example label does not. Also, a note below the photograph states the FCC Statements will be included in the users manual. Additionally the label shows FCC ID: NTAXMETER2. Please clarify if the statements will or will not be on the product and correct the sample label/photograph as necessary.
- 2) The glue used should last the expected lifetime and weather conditions seen by the device. Please confirm that the sticker contains the appropriate adhesive as it is provided and also provide more information as to the type of glue used on the sticker.
- 3) The users manual shows 3 types of pits. The concrete and plastic pits appear to use a lid that partially contains a metal lid. Therefore the users manual should provide clear and specific instructions regarding the design of the lid and/or models/types of pits & lids that must be used with the device to ensure it is compliant. Please update this issue in the users manual.

NOTE: The burden of proof for compliance will continue to be that of the manufactures. Therefore any aspect of the device that affects compliance (type of pit/modification/etc.) must be clearly presented to the installers to ensure the device is properly installed

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
