

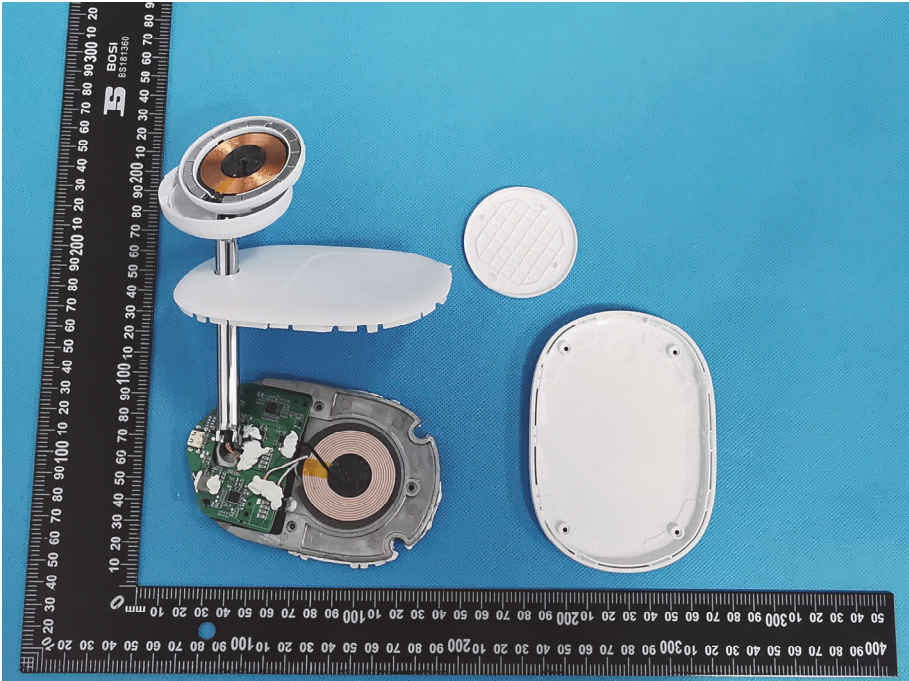

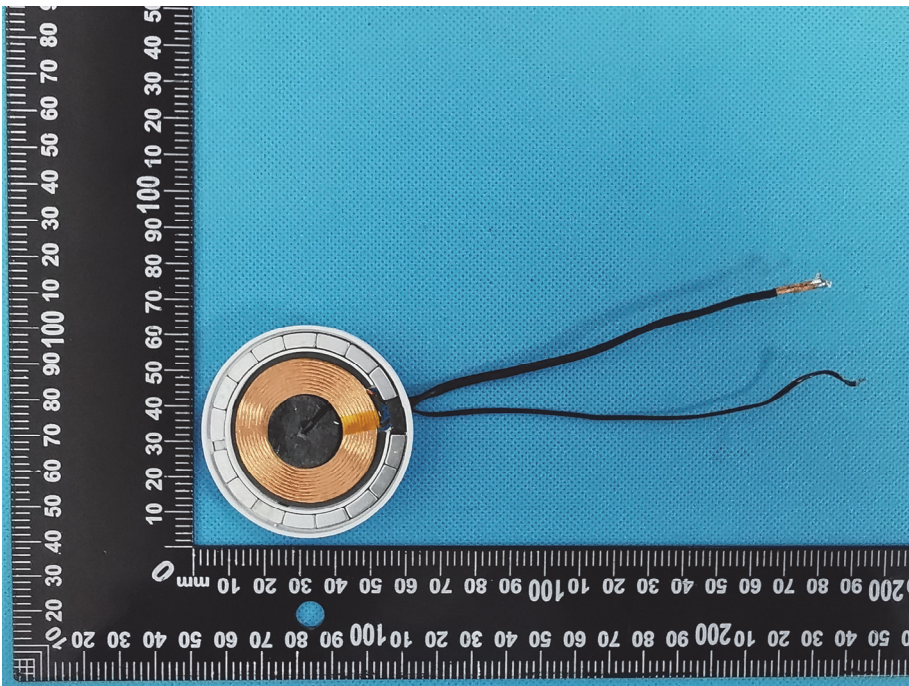

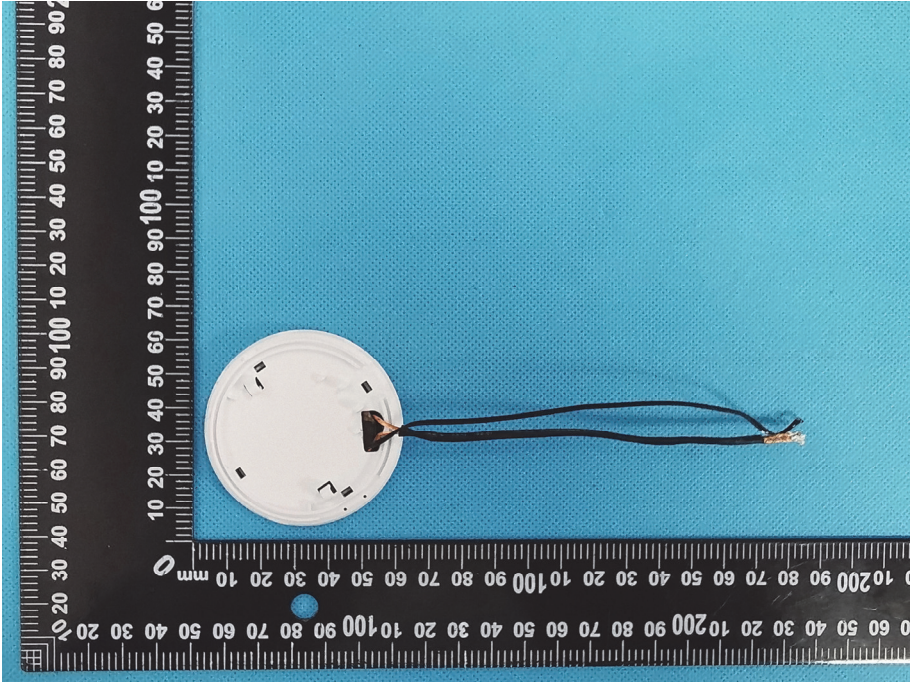

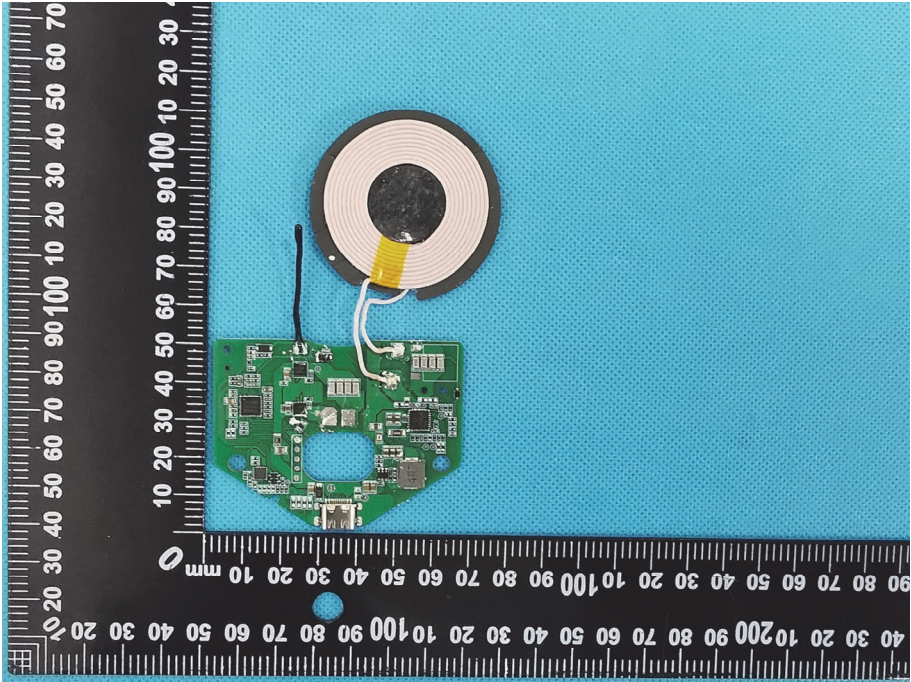

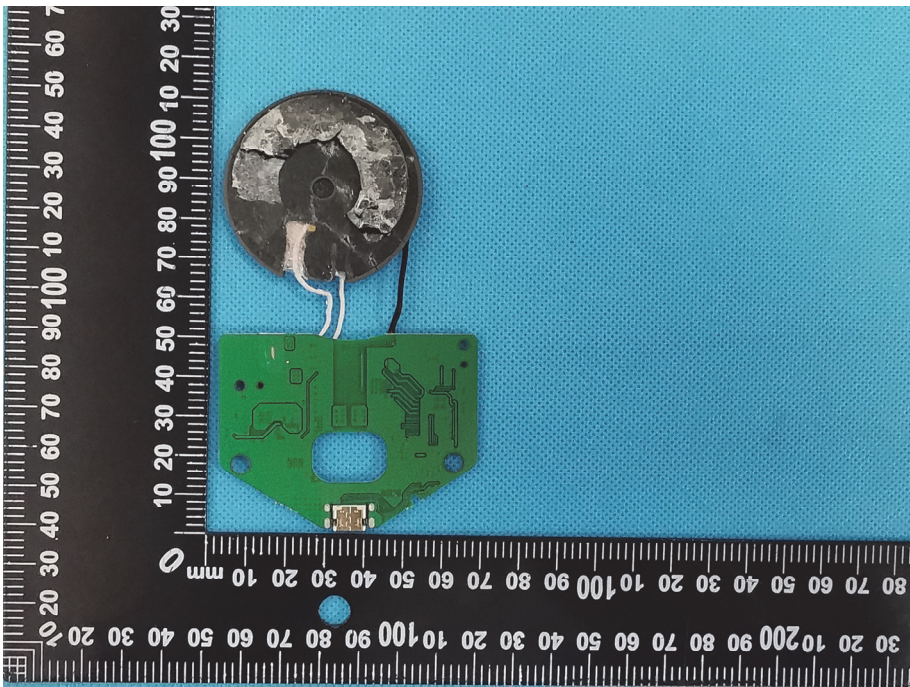

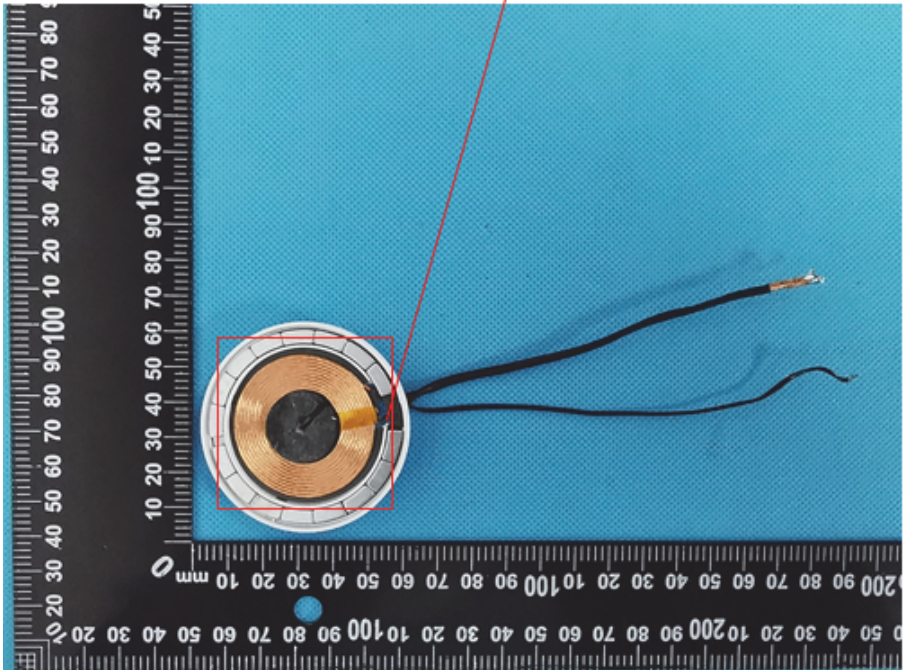

**EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**

|                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>EUT Housing and<br/>Board View 1</b></p> |  A photograph showing the internal components of an EUT housing. A green printed circuit board (PCB) is visible, featuring a circular copper pad and various electronic components. The PCB is mounted on a white plastic housing. A black ruler is placed vertically to the left of the assembly for scale. The background is a blue textured surface. |
| <p><b>EUT Housing and<br/>Board View 2</b></p> |  A close-up photograph of the EUT housing and board assembly. The circular copper pad on the PCB is prominent. A black cable is connected to the board. A black ruler is placed vertically to the left of the assembly for scale. The background is a blue textured surface.                                                                           |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>EUT Housing and<br/>Board View 3</p>      |  A photograph showing the back of a white circular electronic unit (EUT housing) with a black cable attached. The unit is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters. The ruler is oriented vertically, with the 0 mark at the top.                                                                                 |
| <p>Solder<br/>Board-Component<br/>View 1</p> |  A photograph showing a green printed circuit board (PCB) with various electronic components, including a microcontroller, resistors, and capacitors. A black cable is soldered to the board. The PCB is placed on a blue textured surface next to a black ruler with white markings in millimeters and centimeters. The ruler is oriented vertically, with the 0 mark at the top. |

|                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>Solder<br/>Board-Component<br/>View 2</p> |  <p>A photograph showing a green printed circuit board (PCB) component with a circular solder mask. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is positioned vertically, with the ruler's 0 mm mark aligned with the bottom edge of the component.</p>                                                                                                                                                                                 |
| <p>Antenna View 1</p>                        | <p>Wireless charging: output1 Antenna</p>  <p>A photograph showing a circular antenna component with a copper-colored spiral pattern. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler has two scales: one in millimeters (0 to 100 mm) and one in centimeters (0 to 10 cm). The component is positioned vertically, with the ruler's 0 mm mark aligned with the bottom edge of the component. A red rectangular box highlights the antenna component, and a red line points from the text "Wireless charging: output1 Antenna" to the box.</p> |
