Manual de usuario

Cubitt

Bluetooth V5.3

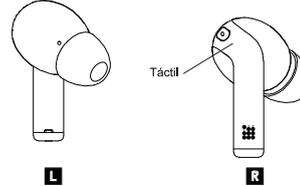

Compatible con sistema de iOS y Android.

Conexión eliminada a la fuerza:

Cuando saque los auriculares de la caja de carga, se conectarán directamente con el dispositivo al cual estuvo conectado anteriormente. Haga 5 toques en cualquiera de los dos auriculares (L o R) para escuchar un sonido "Beep". La conexión con el dispositivo anterior se eliminará a la fuerza. Después de esto, los auriculares entran en modo de espera, para que otros dispositivos puedan encontrarlos para conectar.

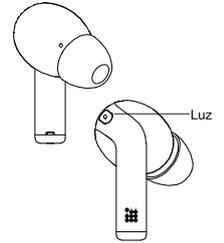

Instrucciones de uso

Un toque :	Reproducir/Pausar/Responder/Colgar
Toque largo 2 segundos:	Encendido/Rechazo/Asistente de voz
Toque largo 5 segundos:	Apagado
Doble toque : Bajar volumen	Doble toque : Subir volumen
Triple toque : Canción previa	Triple toque : Próxima canción
Modo gaming: cuando los auriculares están conectados con el teléfono, toque los auriculares L o R 4 veces. Cuando se escucha el mensaje de voz "beep beep", entra al modo de juego. Vuelva a tocar los auriculares L o R 4 veces, escuche "Duang" para salir del modo de juego.	

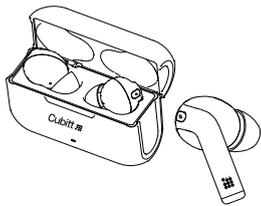

Fácil emparejamiento

1. Coloque los auriculares en la caja de carga para reiniciar, la luz roja se activa.
2. Saque los auriculares de carga al mismo tiempo. El LED de ambos auriculares parpadeará en rojo y blanco rápidamente, después de eso, la luz de un auricular de apagará, y la luz del otro auricular parpadeará en rojo y blanco lentamente. Significa que los auriculares están trabajando juntos.
3. Abra el Bluetooth del teléfono y busque el nombre de emparejamiento "Cubitt Earbuds" para emparejarlo.
4. Después del uso, vuelva a colocarlo en la caja de carga, se apagarán automáticamente.
5. Cuando vuelva a usarlos, simplemente retírelos de la caja de carga y se emparejarán automáticamente.

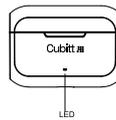

Nota: Si es necesario, apague los auriculares para repetir los pasos anteriores para repararlos nuevamente.

Diagrama de carga

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
