成品尺寸: 66.5X120mm

# 材质: 80g书写纸 双面黑白印刷 风琴折

**Warning:**Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This device complies with part 15 of the FCC Rules. Operation is

NOTE: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television

- If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

  —Reorient or relocate the receiving antenna.

  —Increase the separation between the equipment and receiver.

  —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

  —Consult the dealer or an experienced radio/TV technician for help.

  RF exposure compliance statement:

  1. The device has been evaluated to meet general RF exposure requirement.

requirement.

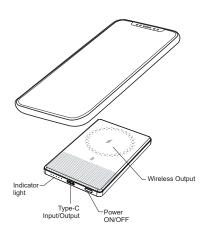

The device can be used in portable exposure ondition without restriction.

Equipment system maintenance is simple, please refer to the manual.
 The user can take simple measures to correct the interference.
 Such as staying away from interference sources, turing off interference

Magnetic Wireless Power Bank

## **User Guide**

#### What's In The Box

#### **Specifications**

Model	LWP-05103A01
Capacity	5000mAh 3.87Vdc / 19.35Wh
Weight	125g ± 10g
Dimensions	105 x 66 x 9 mm
Input	Type-C: DC 5V-2.4A
Output	Type-C: DC 5V <del></del> 3A
Wireless Output	DC 5V=1.5 A 7.5 W DC 5V=1.5 A 7.5 W DC 9V=1.1 A 10 W

#### **Charging Your Device**

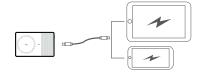

To charge your device with the wireless charger:

- 1. Place a compatible phone or tablet on the suction pad of the wireless power bank, the suction pad free your hands at all.
- 2. Press the power button once to activate charging for your device
- 3. For 5W wireless charging, please do not charge other device at the same time

Note: Please do not place metallic objects over the wireless charging zone while charging your device

#### Method 2

To charge your device with the USB-A port:

1. Connect your device to LWP-05103A01 with the USB-A charging

light up accordingly.
