

ZIDOO X9S ANDROID SMART TV BOX

What's ZIDOO?

ZIDOO is a Professional Android STB Manufacturer, an advanced ARM multi-core industrial product and consumer electronics developer. Although only founded in 2014, our founders are highly experienced and seasoned in the OTT field and are committed to deliver expert professional technical services to a well-known brand at home and abroad.

We specialize in OTT, DVB and Streaming Players, providing Supply Chain Service and Solutions. We maintain good relationships through cooperation with Mstar, Rockchip, Allwinner, Amlogic, Realtek and other original chipset factories. We also provide numerous TV BOX Brands with exported technology. ZIDOO is a unique brand with vast strengths through technology and innovation. The ZIDOO brand is gradually being identified all over the world.

We have our own factory for production of our products and with the growing market demand, constantly update our equipment to meet increased orders. Our factory can supply the output 200,000 devices monthly. We work hard and make continuous efforts to strive for higher goals.

What is...

ZIDOO X9S BOX

ZIDOO X9S Streaming media player

Launcher

Users can intuitively manage their desktop, set shortcuts for Apps, customize the themes. They can also specify a startup App such as ZDMC for more convenient use.

The powerful ZIUI

ZIUI is more than a launcher, it is a series of components developed by the ZIDOO Team over several years, which includes a file manager, a NAS kit, a feature-rich player with powerful subtitle supports and an OTA service based on the global CDN cloud

The ZIUI launcher with a custom feature make it easy for users to customize their own themes and widgets, App icons, even adjust the scroll effects and transitions. Moreover,a App Lock feature on launcher allows users to create a password that is required to access certain App

Setup Wizard

The efficient setup wizard enable users to setup everything in few seconds to enjoy their good time

The ZIDOO X9S features a RTD1295 processor

HDMI2.0a

Mali™
T820

The ARM® Mali™-T820, equivalent to an Octa-core Mali 450, provides the optimal blend of features and efficiency to deliver rich user interfaces and compelling content.

2G + 16G

2GB DDR3 RAM makes bigger games run smoothly and the utilization of eMMC memory offers an array of benefits in terms of performance security and reliability, resulting in a richer end-user experience

HDMI 2.0a interface supporting HDR transmission
HDMI 2.0a added HDR(High-Dynamic Range) support based on HDMI 2.0. HDR provided far more detail of picture and expands the dynamic range, to get a true vision effect. Additionally, ZIDOO X9S supports both decoding and encoding of 4K@60P HEVC(h.265)10bit

10 bit(2^{10}) Color/Finer shades of Colors, Smoother color transitions from light to dark

8 bit(2^8) Color/Grainy obvious, Unnatural Color Transitions

Multi channels decoding and passthrough supported,
Support Dolby Digital and DTS-HD passthrough and downmix

ZIDOO X9S comes built in with the powerful ZIDOO media player, which supports 3D MVC frame packing (Blue Ray, MKV), 3D subtitle (PGS, external), 3D depth of field (DOF), specifying playback time period, selection of multiple slide lights and versions, adjustment of subtitles (colour, time delay, location, coded format) and real 23.976 fps. X9S adopt the standard OMX decode method so as to be compatible with KODI better, the users can smoothly enjoy abundant Add-ons.

Play everything you want, Such as HTML5, MKV, MP4, BD ISO, 3D MVC (ISO and MKV), VP9, etc..

With the Gigabit Ethernet and 802.11ac dual band WIFI supporting 2.4G and 5G, with Double antenna. ZIDOO X9S can provide reliable network access with high data rates.

Additionally, the Bluetooth 4.0 module allows connection to your BT speakers, Keyboard, Mouse and many more

4.0 Bluetooth®

Android 6.0
Marshmallow

Google play

The ZIDOO X9S is based on ANDROID 6.0, supporting built-in applications such as GOOGLE PLAY, KODI, YouTube, Netflix, Skype and many more.
A great box with fantastic compatibilities to meet the most demanding entertainment expectations!

Android 6.0 + OpenWRT(NAS) dual system run simultaneously,Support samba server, iTunes(DAAP) server,DLNA(UPnP) server,FTP server,AFP function(for Apple TimeMachine),BitTorrent download function.

Comprehensive interfaces provide different levels of interactivity

Warning:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter

RF Exposure Statement

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm the radiator your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter
